

IT APPLICATION MANAGER DMS (M/F/D)

STRATEC develops and produces fully automated analyzer systems under the name of many of the leading global in vitro diagnostics companies as well as Hematology and Clinical Chemistry systems that are marketed under the Diatron

BECOME PART OF OUR TEAM

KEY RESPONSIBILITIES

- You are responsible for the maintenance and further development of the global Document Management System (DMS) including server and clients (developed DMS, d.3 Life Science Server, and other modules).
- In this context, you analyze, conceptualize, and optimize the business processes represented in the system in close collaboration with the departments.
- You manage project and process management from the IT side and oversee external service providers.
- You will support the operation of the deployed IT application systems throughout their entire lifecycle.
- You coordinate the group-wide rollout of IT application systems and system modules.
- You continually optimize the IT-supported processes on the technical side.
- Your role with us contributes to ensuring that the departments can work optimally and efficiently with their documents.

HAVE WE SPARKED YOUR INTEREST?

At STRATEC, you can expect a dynamic team, an open working culture, and a flat hierarchy. We are proud to offer long-term employment prospects and challenging and varied tasks. We are looking for new employees who show initiative and are willing to take on different challenges creatively and dynamically.

Please send us a copy of your latest CV along with your salary requirements and earliest start date to the following address: JobsCluj@strattec.com.

KEY REQUIREMENT

- You have a completed degree in Business Informatics or a comparable qualification.
- Your several years of experience with DMS systems and process-oriented support of departments will help you quickly familiarize yourself with your new responsibilities.
- You have good knowledge and experience in the administration, customization, and parameterization of DMS systems.
- Ideally, you have already gained experience working with operating systems such as MS Windows or Linux.
- You are characterized by a responsible and systematic work style.
- A strong customer and service orientation, excellent communication and teamwork skills, as well as very good English language skills, both spoken and written, complete your profile.
